ABOUT ME

"Data Scientist Enthusiastic with skills in Python, SQL, and machine learning. Experienced in working with datasets, building predictive models, and creating visualizations to communicate insights. Currently pursuing a degree in Data Science and seeking opportunities to apply my knowledge in practical settings."

EDUCATION

Bachelor of Engineering in Computer Engineering

Government Engineering College of Palanpur

2023 - 2027

HSC (Science)

Lord Krishna School of Science Patan

2021 - 2023

SKILLS

SOFT SKILLS

- Problem Solving
- Teamwork
- Analytics
- Communication
- Flexibility

TECHNICAL SKILLS

- **Programming:** Python, SQL, Java, Advanced java, C, C++, HTML, CSS, JavaScript, PHP.
- **Data Analysis & ML:** Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
- **Visualization:** Matplotlib, Seaborn, Tableau, Power BI
- **Other:** Git, Excel, Data Cleaning, Cloud tools

PROJECTS

- **FAKE NEWS PREDICTION:** Developed a machine learning model using Python and Scikit-learn to classify news articles as real or fake with high accuracy through text preprocessing and feature engineering
- **BANK LOAN PREDICTION:** Built a bank loan approval prediction system using IBM Watson Machine Learning to analyze applicant data and automate decision-making

CERTIFICATIONS

- AI AZURE (4 week internship by microsoft)
- ARTIFICIAL INTELLIGENCE FUNDAMENTALS (IBM)
- DATA FUNDAMENTALS (IBM)
